

# ALLEN ACADEMY

## Summer Athletics & Science (STEAM) Programs

June 4th - July 20th, 2018

*Open to all rising 6th through 9th graders*

Session 1: June 4 - 8

Athletics Session 8:30-11:30am - \$125

### Volleyball with Coach McMillan

Bump... Set... Spike! Geared towards current and rising Middle School students, this Volleyball session will build passing, setting, attacking, serving, and defensive skills through drills, games, and on-court instructions. Led by Allen Academy's MS Volleyball Coach, Paula McMillan, this session will focus on developing ball control, court movement, and good sportsmanship.

Session 3: June 18 - 22

Athletics Session 8:30-11:30am - \$125

### Soccer with Coach J.D. Crocker

Join us for a week of Soccer to fine tune skills, conditioning and scrimmage play all designed to be both informative and fun! The morning will begin with stretches and light conditioning, followed by individual, partner, and group drills. We will work into small and large group scrimmages as the morning progresses. Some instruction specific to positions will be provided, including goalies. We hope you join us for fun mornings on the pitch this summer!

Session 5: July 9 - 13

STEAM Session 8:00am-2:00pm - \$200

### Engineering for Space!

Engineering for Space! Blast off with rockets on an adventure through the Solar System. Travel and work in a space suit tested, designed and constructed by the students. Once on the moons and planets, it's time to explore! Students will construct robotic rovers to navigate the surface of other worlds collecting data. Included in the week will be a space-related field trip.

Session 6: July 16 - 20

STEAM Session 8:00am-2:00pm - \$200

### Astronomy!

Spend a week exploring the sky in Astronomy! Learn all about our own amazing star, the Sun, through a number of activities including solar viewing, measuring solar power, tracking the path of the sun through our sky and more. Students will learn about the geography and geology of our solar system, and then build a personal telescope and other tools to learn more about the planets, other stars in the sky, our Milky Way galaxy, and universe! This session includes one fun evening under the stars and moon for an out-of-this-world Star Party!
